

# Project Design Phase-I

## Problem – Solution Fit Template

Date	20 October 2022
Team ID	PNT2022TMID50219
Project Name	Project - Data Analytics For DHL Logistics Facilities
Maximum Marks	2 Marks

### Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem.

It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

### Purpose:

- \* Solve complex problems in a way that fits the state of your customers.
- \* Sharpen your communication and marketing strategy with the right triggers and messaging.
- \* Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- \* Understand the existing situation in order to improve it for your target group.

## Template:

Project Title: Data Analytics for DHL Logistics Facilities		Project Design Phase-I - Solution Fit Template	
<div style="border: 1px solid black; width: 100px; height: 15px; margin: 0 auto;"></div>			
Define CS, fit into CC	<b>1. CUSTOMER SEGMENT(S)</b> <span style="float: right; color: #dc3545;">CS</span>  Client analytics is the act of gathering information from various sources and combining it to form a comprehensive picture of the customer. This data may contain details about client demographics, past purchases, and website usage.	<b>6. CUSTOMER</b> <span style="float: right; color: #dc3545;">CC</span>  Teams that are not aligned, lack commitment and show little patience complexity and prejudice	<b>5. AVAILABLE SOLUTIONS</b> <span style="float: right; color: #dc3545;">AS</span>  Usage of Big Data Analytics
	Explore AS, differentiate		
Focus on J&P, fit into RC	<b>2. JOBS-TO-BE-DONE / PROBLEMS</b> <span style="float: right; color: #ffc107;">J&amp;P</span>  Within a company, there is a lack of coordination between various teams or departments, which is not beneficial in the near term.	<b>9. PROBLEM ROOT CAUSE</b> <span style="float: right; color: #ffc107;">RC</span>  There are several issues facing the logistics sector today, particularly with the integration of e-commerce and new data sources like cell phones and sensors. GPS and other gadgets	<b>7. BEHAVIOUR</b> <span style="float: right; color: #ffc107;">BE</span>  An analysis of the most recent big data analytics applications in the logistics and transportation industries.
	Focus on J&P, fit into RC, understand RC		

<b>3. TRIGGERS</b> <span style="float: right; color: #28a745;">TR</span>  Monitoring 24/7 , User friendly interface	<b>10. YOUR SOLUTION</b> <span style="float: right; color: #6f42c1;">SL</span>  Regarding the way in which organizations now use their analytics Now, businesses may predict sluggish and busy times as well as anticipated supply shortages in the future.	<b>8. CHANNELS OF BEHAVIOUR</b> <span style="float: right; color: #28a745;">C</span>  Along with a growth in data volume, data processing technologies will also become more powerful.
<b>4. EMOTIONS: BEFORE / AFTER</b> <span style="float: right; color: #28a745;">EM</span>  <b>Before:</b> Keeping track of records for commodities is difficult. <b>After:</b> Now, businesses may predict busy and sluggish times. future supply shortages that may occur and take appropriate action
